

400 ah battery price South Africa

What is a 400Ah battery?

With a current capacity of 400Ah, it can handle high-power applications, ensuring a consistent and reliable power supply for your home. The battery's maximum continuous charge current of 400A and maximum continuous charge power of 20 kW enable rapid charging, allowing you to quickly replenish energy from renewable sources or the grid.

Are lithium ion batteries suitable for South Africa?

Temperature Tolerance: Lithium batteries often have a wider operating temperature range compared to other battery types. This makes them suitable for the South African climate and its extreme temperatures. Because of these significant advantages, when it comes to solar batteries, lithium ion is a popular choice.
