

Why should Uganda invest in electricity?

"The Government of Uganda wants to promote safe, reliable and sustainable electricity supply and facilitate stable regional electricity trade. By increasing investment in our electricity grid, we will be able to unlock suppressed demand; boost industrialisation and power our export sector.

Does Uganda have a good energy sector?

Uganda has a well organised energy sector with a strong track record. The country has taken significant steps over the years to ensure security of supply and to set it on a path towards delivering least cost electricity to end users to drive industrialisation and economic growth. The Amari project will be the first of its kind in Uganda.

Will private investment support Uganda's transmission sector?

Gridworks and the Government of Uganda have agreed to develop a first-of-its-kind project to use private investment to support the development of Uganda's transmission sector. The agreement was announced today by the UK Prime Minister, Boris Johnson at the Commonwealth Heads of Government Meeting in Kigali.
