

What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.

Is Albania a good place for solar energy?

Albania gets about 2100-2700 hours of sunshine in a year so it has a great potential for solar energy. Solar energy is easily accessible since most energy comes directly or indirectly from the sun. It could be used for heating and lighting homes, commercial, and industrial buildings.

Who is ecosun Albania?

Ecosun Albania is a renewable energy company focused on the photovoltaic sector. Our company has managed to leave a significant footprint in this sector due to the strategy focused on creating competitive advantages, as well as the way on enhancing partnership relations inside and outside Albania.
