

Arctic energy solutions Samoa

Does American Samoa have energy issues?

Although energy burdens pose a real challenge in American Samoa, the territory is working to advance energy justice. For example, the Territorial Energy Office provides home energy efficiency programs to help reduce energy costs for low-income households.

Why should you choose Arctic Energy Solutions?

Reliable Partnership: When you choose ARCTIC Energy Solutions, you're not just a customer - you're a valued partner in creating a more comfortable and energy-efficient living space. We are dedicated to building a lasting relationship based on trust, transparency, and open communication.

What is American Samoa's energy policy?

American Samoa is committed to leveraging these and other federal funding opportunities to advance its energy goals and priorities moving forward. American Samoa's energy policy landscape constitutes a blend of multilateral agreements, strategic plans, rules, regulations, and dedicated offices.

Does American Samoa have a geothermal energy plan?

The 2016 American Samoa Energy Action Plan identifies some geothermal resources, but none of these are viable for commercial electricity generation. The 2016 plan instead emphasizes the development of wind and solar power (Ness, Haase, and Conrad 2016). American Samoa is exploring opportunities for both offshore and onshore wind power generation.

Does Samoa have an emergency energy conservation plan?

1979: The U.S. "Emergency Energy Conservation Act of 1979" requires the submission of an emergency energy conservation plan by each state or territory (Public Law 96-102, as amended). American Samoa adopted its Emergency Energy Conservation Plan in 1982 (see Chapter 5, Annex A of ASCA 12 for plan details).

Why should you choose Arctic insulation?

At ARCTIC, we are committed to providing unparalleled comfort and unwavering energy efficiency. With a deep-rooted passion for creating spaces that are both cozy and eco-friendly, we take pride in delivering top-tier insulation solutions tailored to your unique needs.

Dr. Levi Kilcher is the Senior Energy Advisor for the Arctic Energy Office. In this role he supports the Director of the Arctic Energy Office in implementing DOE's Arctic Strategy, with special focus on implementing the strategic goal to advance the decarbonization, resilience, and equity of the Arctic energy sector and broader economy.
