

What are automated vertical warehouses?

No more mistakes and no more clutter. Ideal for tall structures, automated vertical warehouses are made of steel and are equipped with a motorised central elevator. Their main benefits of our automatic vertical storage systems include savings on space and keeping products neat and tidy.

What are vertical storage solutions?

Vertical storage solutions are perfect for making the most of the height available in buildings, saving floor surface. These products are the ideal answer for a clean, tidy, safe and fast-moving warehouse.

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options.

What is a Modula automatic vertical tray warehouse?

Modula automatic vertical tray warehouses allow you to store goods in an clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

How can vertical solutions save your warehouse floor space?

Vertical solutions can save up to 60% of your warehouse floor space and dramatically increase the pace of accessing and retrieving items from storage. Our specialists will be happy to develop a solution that meets your specific storage and intralogistics requirements. Contact us for more information and details.

Reinvent the capabilities of your operations by optimizing vertical space for storage. With solutions tailored to your specific dimensions and restrictions, our solutions are designed to free up your valuable floor space. Increase your ...

Vertical storage is a type of storage system that utilizes the vertical space of a facility, maximizing storage capacity while minimizing the floor space required. This is achieved through the use of vertical lift modules (VLMs), which are automated storage and retrieval systems that consist of two racks of shelves stacked

upright with an ...

Modula Vertical Lift Modules (VLMs) are fully automated vertical storage systems that take up a minimum footprint by utilizing the ceiling height available. These systems allow for large inventory of goods to be quickly accessible while being stored in a safe and secure environment and automatically delivered to the operators, with a simple ...

Since 1987, the Modula automated vertical tray warehouse has optimised the warehouse logistics of every company in any industrial sector. Modula is a specialist in design and construction of automated warehouses for intralogistics, to guarantee better quality storage and efficient, economical picking.. It all stems from the "goods-to-man" principle, when products go to the ...

Our range of high-tech automated solutions includes Hänel Rotomat® industrial and office carousels, the Hänel Lockomat® and the proven Hänel Lean-Lift® and Multi-Space® vertical storage systems.

Limited space, an awkward warehouse building, increasing inventory or turnover in unusual shapes or sizes can all make it difficult to find the right ASRS solution. Multiple factors need to be considered when choosing the right solution. Automated storage solutions need to be scalable while maximizing space and performance. Staying flexible ...

Maximise your storage capabilities with our versatile range of storage carousels. Whether you need a solution for small parts, finished products, or specialised items like tyres and rolls, our carousels offer customisable, space-efficient ...

Motorized Shoe Storage, Closet Rods and Vertical Sliding Doors - StorageMotion Inc.® StorageMotion Inc. is a company that is dedicated to creating all types of automated and motorized products that improve closet and home design and dramatically increase the amount of ...

Tornado Automated Storage Tower The Tornado automated storage tower (also known as a vertical lift system) is a rapid automated storage solution which significantly increases floor space capacity, productivity and picking efficiency. ...

Complete solutions from a single source Modular and scalable systems Wide range of systems, from manual to semi-automated and fully automated High-performance and modular software solutions Cost savings from optimized ...

Automated warehouse solutions, like automated storage and retrieval systems and automated warehouse pickers, can eliminate manual tasks, such as transporting heavy inventory and manual picking. On the other hand, vertical lift modules can maximize your available warehouse space by taking advantage of your ceiling

height. 3.

A vertical lift module, also known as tray lift and lift storage system, is an automated storage system for small parts. A vertical lift module resembles an oversized drawer cabinet made from metal with two large warehouse areas (carrier areas). The carrier areas can be compared to a ...

Examples of Hänel solutions in real use. Browse through our search criteria and select those that match your needs - you will find a number of real-life solutions that address your storage requirements. Simply checkmark the keywords to find information quickly. Now ...

Kardex offers innovative automated storage solutions dedicated to optimizing your storage and order picking operations. Watch how ASRS from Kardex transform a traditional warehouse! ... Vertical Carousel vs Vertical Lift Module Learn which automated storage system is the right fit for your operation. Learn more Vertical Buffer vs. Vertical Lift ...

Storage and handling typically performed by a forklift to/from pallet rack or cantilever can be streamlined with automated vertical storage lifts. ... and overhead handling solutions like jib cranes, trolley cranes, and monorails. Best Uses: Sheet Metal, Bar Stock, Tube Stock, Fiberglass, Plywood, Fabrication Support, Laser Cutting Operations.

Since 1987, the Modula automated vertical tray warehouse has optimised the warehouse logistics of every company in any industrial sector. Modula is a specialist in design and construction of automated warehouses for ...

Pros. Comprehensive solutions: Conveyco offers various vertical storage solutions, from manual systems like pallet racking and mezzanines to advanced automated systems like ASRS and AMRs.
