

Bahrain prosun energy

Does Bahrain have solar energy?

Given Bahrain's climate, solar energy is a vital part of the kingdom's clean energy mix, accounting for 93% of its renewable capacity in 2020. In November 2021 the government inaugurated the Batelco solar plant, which can produce some 1600 MW of power and is expected to reduce the country's carbon emissions by around 900 tonnes.

What is the largest solar carport in Bahrain?

The solar plant at Dragon City, with a capacity of 5.7 MW, is the largest solar carport plant in Bahrain and ranks as the second-largest solar project in the Kingdom. Over the next 25 years, it is expected to generate 9,000,000 kWh of clean renewable energy annually, substantially reducing the nation's carbon footprint.

How much energy does Bahrain need?

In order to achieve these objectives, Bahrain will need 280 MW of electricity generation capacity from renewables by 2025, increasing to 710 MW by 2035. According to the Sustainable Energy Authority (SEA), the country is targeting solar, wind and energy from waste to hit these targets.

How will a 100 MW solar PV plant be built in Bahrain?

Once the necessary rehabilitation is complete, a 100 MW solar PV plant will be constructed. On the distribution side, Bahrain has adopted a net metering system, allowing businesses and individuals to install solar systems and supply excess electricity to the EWA grid.

Why is Bahrain investing in renewables?

Bahrain is also beginning to ramp up investment in renewables as it works towards its goal of reaching net-zero carbon emissions by 2060. The spike in oil prices in early 2022 could offer further incentive for Bahrain to expand its green energy capabilities. In September 2021 Bahrain announced plans to restructure its oil and gas industry.

Why is Bahrain reorganizing its oil & gas company?

Bahrain's utilities segment is driving demand for new infrastructure and investment due in part to renewable energy and efficiency strategies. The government is restructuring its oil and gas holding company, Bapco Energies.

Prosun Energy Private Ltd | 409 followers on LinkedIn. Solar Power Plants EPCC, O& M, Solar plant components manufacturing | We are an ISO 9001:2008 certified organization engaged in manufacturing, exporting of a wide range of solar energy products, solar power products, heating products and accessories.
