Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops, the Government of Barbados is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial growth in this sector.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Solar Energy Innovations Inc. is in Emerald Park, Six Roads St. Philip in Barbados. The company was incorporated in November 2008 to develop solar photovoltaic solutions for the residential and commercial sectors in Barbados. It was founded by Mr. Allan Simmons of Simmons Electrical, who serves as chairman of the board.

Lisa Cummins, Barbados' Minister of Energy, hailed the use of Jurchen Technology's PEG EW racking solution as a significant stride towards achieving renewable energy goals. The Barbados Light & Power Co. Ltd. contributes to the national grid with a 10 MW per day photovoltaic (PV) solar plant in St. Lucy, complemented by 25 MW of customer ...
