Bb box solar Saint Lucia

megawatt (MW) solar farm in Saint Lucia, the first ever utility-scale renewable energy project on the island. The 3 MW facility is located near the Hewanorra ...

The Government of Saint Lucia is partnering with Solar Head of State to install solar panels on the public residence of the Governor-General, Government House. This is part of the island's target to generate 35% of its electricity from renewable sources by 2020 and 100% by 2030. This project will be a symbolic statement of intent by the ...

In my opinion, solar power in Saint Lucia remains in the hands of those who can make a large investment in the long term. For those who at some points cannot even afford the cost of electricity services, investing a large sum into solar panels is not a possibility, even though in the long term it will be consistently cheaper than traditional ...
