

Benning solar Puerto Rico

Why is Puerto Rico funding solar & battery storage?

Funding is Part of a \$1 Billion Effort to Deploy Solar and Battery Storage to Puerto Rico's Most Vulnerable Residents, Helping Increase Resilience and Lower Energy Bills for up to 40,000 Households

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Will a future powered by renewables make Puerto Rico more energy efficient?

"A future powered by renewables will offer the residents of Puerto Rico more energy security and more reliability--all while leaving households with cheaper bills to pay," said U.S. Secretary of Energy Jennifer M. Granholm.

The Marah project consists of two planned solar plus storage facilities, Salinas and Jobos, that will incorporate the most advanced solar and energy storage technologies. ... designed to create long-term value and positive impact for both the environment and local communities and will support Puerto Rico's goal of generating 100% of its ...
