Who is BST power?

After years of growth, BST has become one of the leading battery and energy solution providers in China. With a full automatic production line from Panasonic for producing the battery cells. And with each step, we follow strict QA and QC standards. BST Power aims for fulfilling all the needs of clients, with 100% satisfaction.

Are BST batteries safe?

For over 20 years, BST's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers. As a leading battery company, BST's innovative, safe, and reliable technology delivers high performance on Battery Energy Storage Systems and Battery Cells.

Who is Bermuda Electric Light Company?

In the 1950s, we decided against developing a tramway for the island and so removed the word "Traction" from the Company's name and became what we all know today as the Bermuda Electric Light Company Limited - BELCO. We embraced new technologies as we grew.

What services does BST offer?

Today, we offer various services from customization of our standard battery pack line to one-stop BESS solutions. For over 20 years, BST's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers.

Why should you choose BST?

As a leading battery company, BST's innovative, safe, and reliable technology delivers high performance on Battery Energy Storage Systems and Battery Cells. Storing renewable energy so that it can be used not only when produced, but when it is needed, is one of the greatest barriers to the clean energy transition.

How much electricity does Bermuda use?

Large commercial organizations use about 40% of electricity produced. The standard voltage in Bermuda is 120 V and the standard frequency is 60 Hz AC. Flat, two-pronged plugs (Type A) are in use. All US and Canadian appliances work on the island, without voltage converters or adapters.

Bermuda Electric Light Company Limited (BELCO) is a Bermudian electricity-generating company. It is the country's sole supplier of electricity, operating a generating plant, transmission and distribution systems throughout the territory.
