Refined Storage uses RF power to function. RS does not contain any RF generators, so you'll have to add a mod that does. Thermal Expansion, Extra Utilities 2, Immersive Engineering, and a ton of other mods have RF generators. Or, if you really don't want more mods, cheat in a creative controller. Tesla won't actually do anything for you.

1.15.2 is still a bit "uncharted territory" for most players, so you might get some answers about mods that are not yet available for 1.15 Generally there are only very few exceptions to what generators you can use: IC2 and Buildcraft have their own power systems, most other mods create either FE or RF which should be interchangeable.

By carefully evaluating these factors, you can choose the most appropriate backup power solution--battery storage or generator--that meets your unique needs and circumstances. As the energy storage and backup ...

According to BEL, the proposed underwater generator would provide more than 8% of Bermuda's current electricity demand, but it will not damage sea life, including ocean reefs. The plant operating at a depth of 75 to 200m would take advantage of constant ocean currents off Bermuda, and could be more efficient than large wind turbines.
