

Bermuda sunpad solar

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

What is Sunpad Solar System?

SUNPAD is a unique and completely new solar system. By integrating the heat carrier tank into the insulation, which includes all supporting components at the same time, we have created the most compact solar system available on the market. Due to the small number of components, the system is virtually maintenance-free.

Why should you choose Sunpad solar water system?

Our all-in-one-compact solar water system delivers fresh water with high performance. The innovative concept convinces with unique design for aesthetic roof integration. SUNPAD stands for an excellent performance at a low cost price and a short payback period. Furthermore optimized packaging ensures reduced transport costs.

What is sunny side solar?

Sunny Side Solar believes the scientific evidence that climate change is the most serious threat of our time. Therefore, we are dedicated to making Bermuda more resilient by taking positive action to diversify the energy supply. The best opportunity for this, after energy efficiency and conservation, is installing solar.

What is Sunpad & how does it work?

SUNPAD stands for an excellent performance at a low cost price and a short payback period. Furthermore optimized packaging ensures reduced transport costs. Designed as a plug and play system, SUNPAD is fast and easy to install. Its light weight structure for easy handling is suitable for flat or pitched roof mounting.

How many trees are planted in a Sunpad Solar System?

The CO₂ emission by one SUNPAD corresponds to 100 huge planted trees. SUNPAD is a unique and completely new solar system. By integrating the heat carrier tank into the insulation, which includes all supporting components at the same time, we have created the most compact solar system available on the market.

Inspired by nature, we have developed this revolutionary new solar heater for hot water. SUNPAD is less expensive and more userfriendly, innovative and aesthetically pleasing than any previous heater system on the
