

What type of energy is used in Belarus?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Belarus: How much of the country's energy comes from nuclear power?

Is biomass a source of electricity in Belarus?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Belarus: How much of the country's electricity comes from nuclear power?

Who regulates electricity in Belarus?

Belarus does not have a single independent energy regulatory authority. The Ministry of Antimonopoly Regulation and Trade is responsible for regulating electricity and heat tariffs for industrial customers, independent suppliers and all categories other than residential consumers, based on the 2011 Decree on Price Tariffs.

What does the republican unitary enterprise Belarusian nuclear power plant do?

In accordance with Presidential Decree No. 583 of December 2013, the Republican Unitary Enterprise Belarusian Nuclear Power Plant performs the functions of holder and operating organisation for commissioning, operations, performance control, lifetime extension and decommissioning of the Belarusian NPP.

Will ENTSO-E improve the reliability of Belarus's energy system?

The strategic plans of the Baltic States' and Ukraine's energy systems to join the European Network of Transmission System Operators for Electricity (ENTSO-E) energy system have reduced the external connections - and thus the reliability - of Belarus's energy system.

How does dbrb finance projects in Belarus?

The Development Bank of the Republic of Belarus (the DBRB) can finance long-term projects of major social and economic importance through direct lending or financing by leasing, or can act as an intermediary to attract borrowed funds from the financial market. Other Belarusian commercial banks can finance projects through the securities market.
