The Renogy 200w Solar Panel Premium Kit is by far the best option on the market for van lifers who want to maximize the performance of their camper van solar system, go off-grid and don't want to kill the budget either (especially when you combine it with our exclusive 10% discount code we worked hard to get below).. This kit comes with everything you need to ...

In our 2024 survey of more than 2,000 solar panel owners, 43% of them also had a battery. Many others said they'd add a battery if they were installing their system now. Without solar panels, you could use a battery to make the most of a time-of-use tariff by storing up electricity while it's cheap (overnight, for example) to use during peak ...

Yeah, if you set the whole thing up right, the battery will charge off your panels. And you can set up a situation where you basically form a micro-grid where the battery will charge during the day while your house is getting power from the solar panels. Though how hard that will be to retrofit into your existing solar set up, I don't know.
