

Best solar solution Micronesia

Will Pohnpei get a 5 MW solar power farm?

PEPP's proposed \$20 million 5 MW solar power farm for Pohnpei would help to establish the Federated States of Micronesia as a world trendsetter in the application of renewable energy. It would give the FSM greater energy independence.

Why did the Micronesian government seek out PV & Bess?

The Micronesian government sought out PV and BESS for a grid-tied solution to support (PCU) Micronesia's power supplier. Installation of BESS supported power infrastructure at two locations:

How much does a solar project cost in Pohnpei?

After just 15 years, the entire project, capitalized at over \$20 million, will transfer, without cost, to the State of Pohnpei, providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.
