

What is the cheapest energy plan in Australia?

EnergyAustralia also has three standard energy plans and 1 feed-in tariff. Like AGL, not every plan is available in each state. If you are looking for the cheapest electricity plan, your best bet is to go with the EnergyAustralia Total Plan. You can see a full list of Energy Australia plan offerings in the table below:

How will Australia's energy system help meet international commitments?

The Australian Government is powering forward with a plan that will deliver an affordable and reliable energy system that will also help meet our international commitments. As our energy system transitions, we must ensure there is enough electricity generation to supply households and businesses reliably while delivering affordable power.

Does Australia have a reliable energy system?

The Government has strengthened the security and reliability of Australia's energy system. We are focusing on reliability as intermittent renewables, such as solar and wind, now account for a greater share of our energy mix.

Why should Australia reform the electricity sector?

Reform of the electricity sector, which represents around 35 per cent of Australia's emissions, is important. The new National Energy Guarantee recommended by the Energy Security Board will result in lower emissions over time, consistent with our international commitments.

Are AGL and EnergyAustralia the cheapest energy providers available?

We found that AGL and EnergyAustralia are not the cheapest energy providers available. If you are looking for the cheapest energy plans in each state, you can compare the cheapest energy rates [here](#).

Is AGL better than Energy Australia?

AGL clearly beats out Energy Australia in terms of customer service. According to the AER market report which tracks customer service and complaints, AGL has an average call wait time of only 34 seconds. That means you can expect to wait on hold with EnergyAustralia for more than a minute longer on average.

The energy market is deregulated in New South Wales, Victoria, Queensland, South Australia and Tasmania. The changes have resulted in privately owned energy providers and energy retailers offering wide-ranging incentives to entice new customers. GoSwitch will help you find: Cheap energy deals from leading energy providers based on your postcode.
