

Is Burkina Faso suitable for solar power projects?

This suitability assessment was carried out at the request of the Government of Burkina Faso to map potential areas for utility-scale solar photovoltaic (PV) and wind projects. Currently, less than 25% of the population has access to electricity and the majority of those with access live in urban areas.

How will BGFA support Oolu in Burkina Faso?

With the support of BGFA, Oolu will scale up its current business activities in Burkina Faso, aiming to establish over 28,000 additional subscriptions over a four-year period by providing solar home systems for lighting, mobile phone charging, TVs, fridges and freezers as well as power sources for commercial customers.

Can Burkina Faso achieve 95% electricity access?

The country aims to reach 95% electricity access, with 50% in rural areas and universal access to clean cooking solutions in urban areas, with 65% in rural areas by 2030, up from 9% in 2020. The utilisation of Burkina Faso's renewable resource potential would enable the country to reduce its heavy reliance on thermal generation and energy imports.

What is Burkina Faso's road network?

The road network considered in this analysis was provided by the National Observatory of Territorial Economy office in Burkina Faso. It includes the national, regional and departmental roads across the country as shown in Figure 6. Figure 6. Burkina Faso's road network

What is NEFCO doing in Burkina Faso?

"We are very pleased to announce our first project in Burkina Faso, which will support access to clean energy solutions in several regions across Burkina Faso and is estimated to benefit over 155,000 people," commented Dennis Hamro-Drotz, Senior Programme Manager at Nefco.

How will Burkina Faso improve electricity trade with neighbouring countries?

Additionally, the results from this report are intended to inform the design and development of the country's regional projects as Burkina Faso is planning to enhance electricity trade with neighbouring countries through regional interconnectors with Benin, Niger, Nigeria and Togo.
