

Where is AESC made?

Founded in Japan in 2007 and headquartered in Yokohama, AESC has been building manufacturing capabilities around the world in the U.S., U.K., Europe, Japan and China to serve key markets and leading customers locally for over 14 years.

Why should you choose AESC?

Today, AESC has become the partner of choice for the world's leading OEMs and energy storage providers in North America, Europe, and Asia. Its advanced technology powers over one million electric vehicles and provides more than 15GWh of installed capacity for battery energy systems in over 60 countries.

What jobs are available at AESC?

At AESC, we offer a range of exciting job opportunities for both entry-level and experienced professionals. Our entry-level roles include positions for Production Technicians, Forklift Drivers, Warehouse Support, and Apprenticeships for Maintenance Technicians--no experience required.

Where are AESC batteries made?

AESC is expanding its footprint in the United States with gigafactories in Kentucky, South Carolina, and Tennessee to meet the growing demand for EV and BESS batteries and strengthen its presence in the North American market.
