Is greenmatch a good solar installer?

We're really pleased that you found our service so easy to use. Though we used green match too late in the day and had committed to the really expensive project solar, it really is worth going to the other solar panel installers out there. If only we had found greenmatch sooner, they would have saved us at least 4k.

The heating system stock in the UK currently relies on gas systems. In fact, 85% of all the heating systems operating are gas boilers, and about 1.5 million gas boilers are installed each year (the UK is the biggest boiler market in Europe). Renewable heating, on the other hand, represents 2% of the heating systems in the UK (heat pumps about 1%, being air source heat ...
