

Canada solar titan

Who is Titan solar power?

As the Nation's leading Rooftop Solar Contractor*,Titan Solar Power partners with like-minded Solar Sales Companies and Dealers to deliver world-class installations with industry-leading customer experience. Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time.

What happened to Titan solar?

Titan was the largest solar installer to close its doors when it shut down June 13, according to research firm Wood Mackenzie, but customers like Palmer are not alone in having nonworking panels on their homes and nowhere to turn.

Why should you choose Titan solar?

Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time. Solar is what we do and what we excel at. As a Titan partner, you can rest assured we are just as committed to ensuring every one of your customers are elated with their decision to go solar.

Did Titan solar go out of business?

Two years later, the panels have never been switched on and the company that installed them--Titan Solar--has abruptly gone out of business, leaving Palmer with a shiny but useless array on her roof.

How does Canadian Solar ensure a safe supply chain?

Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i.e., slave, convict, indentured, forced or indentured child labor. Copyright © 2019; Canadian Solar. All rights reserved

Does a Titan 240 sp have a high frequency inverter?

The Titan 240sp has a heavy duty low frequency inverter that is designed to last extremely long. Most solar generators use a high frequency inverter, which is much lighter, but is not as reliable. Our Titan 240sp inverter is like comparing a gasoline engine to a heavy duty diesel engine.
