

Key View. We at Fitch Solutions forecast real GDP growth of 4.0% in the Cayman Islands in 2022, up from a revised estimated of 1.8% in 2021. Stronger growth will be supported by a rebound in tourism following the phased reopening of international borders from November 2021 and the gradual lifting of Covid-19 restrictions.

The subdivision design for phase three of the Lighthouse Gardens development consists of nineteen affordable housing lots. The phase will complete the 9.5 acre property with a total of fifty-five affordable homes at the location.

fuel the growth of Cayman as a world-class offshore financial center, and as a first-class tourism destination. But as times change, Cayman can no longer sit back and rest on these two economic laurels - diversification is key. That's why these projects are a welcome addition to the islands. They provide opportunity, stimulus, and growth
