Which company will build the most powerful ground-mounted solar facility in Switzerland?

Zug, 13th January 2022 - VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ground-mounted solar facility in Switzerland. 19,000 photovoltaic panels will generate a significant portion of electricity consumed by Switzerland's only refinery, located in Cressier.

What is the most powerful solar plant in Switzerland?

The solar facility covering an area of 47,000 m² and consisting of 19,000 panels is the most powerful ground-mounted plant of its kind in Switzerland. Its output is equivalent to the consumption of around 2,000 households.

Will a solar facility decarbonise Cressier's manufacturing hub?

Decarbonising of the manufacturing hub of Cressier: VARO and Groupe E have developed a solar facility composed of 19,000 photovoltaic panels, which covers an area of 47,000 m² of industrial land. At periods of peak production, it will meet 60% of the electric power needs for the Cressier manufacturing hub.
