

# Complete solar power kits for homes price Indonesia

What are the best solar panels for landed homes in Indonesia?

The most popular solar panel brands in Indonesia are typically the more affordable top Chinese manufactured panels in the list such as LONGi, Jinko, Trina, JA Solar, etc. Here's a rough estimate of the standard system cost for landed homes in Indonesia. Remember that installation costs will also vary depending on the above factors.

How much energy does a solar system produce in Indonesia?

Solar panels only produce energy when there is direct sunlight. In Indonesia, this translates to roughly 4.2 kWh of energy per kW installed. In an off-grid solar system, storage batteries are required to allow you to access solar energy for an entire day.

Are solar panels a good investment in Indonesia?

Unlike years ago, solar panels and rooftop PV systems in Bali, Lombok, and other areas in Indonesia, are now quite affordable and make great financial sense.

Who are the fastest growing solar companies in Indonesia?

One of the fastest growing companies in Indonesia, they currently have a portfolio of over 30 MWp solar projects, only 4 years into operation. They have completed more than 3000 residential solar installations to date. Based in Jakarta, ATW Solar also has a Solaristic Showroom powered by solar panels.

How many solar rooftop projects are there in Indonesia?

They currently operate more than 50 solar rooftop projects throughout Indonesia in various companies, such as Kimberly-Clark Softex Indonesia, Plaza Indonesia, Platinum Ceramics, Monde Biscuit, LTC Glodok and others. This article was first published on 29 April 2022 and last updated on 13 May 2022 to include additional details.

How much does a solar system cost?

Overall, the price of installing grid-tied solar systems can range from 40 million IDR for small houses, 90 mil. IDR for medium sized townhouses to 150 mil. IDR or more for larger bungalows. Most solar panels come with a 12-year product warranty and 25-year power output warranty. Meanwhile, solar inverters usually have a 5-year product warranty.

By using solar panels in Bali, Lombok, and the islands east Indonesia you will benefit from a great sun exposure year-round, with some areas better than others. On average, 1kW of solar PV (photovoltaic) system in Bali produces ...
