

How much cobalt does Congo produce?

Last year, Congo supplied about 70 per cent of the world's cobalt, dwarfing its closest competitors, Australia and Russia. As the world races to adopt green energy technologies in the fight against climate change, cobalt is in demand like never before.

Is cobalt mining causing a new epoch in Congo?

(Foreign Correspondent: Michael Davie) But the violent rush to extract cobalt is unleashing a new cycle of misery and foreign domination in one of the world's poorest nations. Massive industrial mining operations -- mostly Chinese-owned -- have moved into Congo, intent on dominating the next energy epoch.

Where is the Republic of Congo (ROC) located?

The Republic of Congo (RoC), also known as Congo-Brazzaville is a country located in central Africa and is bordered by countries as Gabon, Cameroon, the DRC, and Angola; RoC has an economy that is heavily dependent on oil which contributed to 60% of government revenue in 2016.

What's going on in Congo?

Massive industrial mining operations -- mostly Chinese-owned -- have moved into Congo, intent on dominating the next energy epoch. The big mines are accused of corruption, poisoning the locals and exploiting Congo's resources with little benefit for the country.

Did Congo crack down on children working in cobalt mines?

To appease major battery buyers like Apple and Tesla, the Congolese government pledged to crack down on children working in mines. But half a kilometre from where Deomba is buried is an open-pit artisanal cobalt mine the size of two football fields, teeming with children.

Why are big mines a problem in Congo?

The big mines are accused of corruption, poisoning the locals and exploiting Congo's resources with little benefit for the country. On the fringes of the big mines, nearly a quarter-million small-scale miners, including women and children, labour for a smaller piece of Congo's mineral riches.

The Republic of Congo (RoC), also known as Congo-Brazzaville is a country located in central Africa and is bordered by countries as Gabon, Cameroon, the DRC, and Angola; RoC has an economy that is heavily dependent on oil which contributed to 60% of government revenue in 2016. ...
