

Who is Coriolis Energy?

Coriolis Energy is a specialist independent wind farm development company. Our team is amongst the most experienced in the sector and has to date successfully completed over 100MW of operational onshore wind farms with a further 400 MW currently in development.

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

Will Cabo Verde privatize Electra?

" The project will build on recent efforts from the World Bank to support the Government of Cabo Verde in the privatization of the electricity utility ELECTRA. A first step has been taken with the enactment of the power sector reform decree law, supported by the Cabo Verde First Equitable and Sustainable Recovery Development Policy Financing.

How will the Electra project support the government of Cabo Verde?

Finally, the project will support the Government of Cabo Verde's goal to mobilize private and public capital for energy sector investments, by increasing stakeholders' capacity and supporting the restructuring and privatization of the electricity utility ELECTRA.

Does Cape Verde have a wave energy potential?

In the case of Cape Verde, there is one study evaluating the wave energy potential which highlights the resource available, particularly for the northern islands, such as São Vicente . Unfortunately, the study identifies the wave resource to match that of the wind.

Will Cape Verde provide 100% of its electricity by 2040?

Cape Verde's authorities say they want to provide 100% of its electricity from renewable sources by 2040. Produced by Nicolas Negoce Edited by Munira Hussein 95% of Cape Verde has access to the electricity but a third of the population still relies on firewood and charcoal for cooking.
