Costa Rica Solar Solutions designs custom solar system solutions based on the energy needs of your home o business. Clean energy offers great return on your investment and allows you energy independence. Costa Rica Solar Solutions has completed many of the largest commercial solar systems in the country.

How much solar power can Costa Rica use?

Utilising about 6%of total solar power potential and 25% of Costa Rica's wind power potential would suffice to supply enough energy to do so. Electricity costs can be reduced by almost US\$1 cent per kWh of power generation by deployment utility-scale and decentralised renewable energy installations.

Who sells solar panels in Costa Rica?

American firms have a strong presence in Costa Rica by selling their products through local distributors or joint ventures. The main competitors of U.S. businesses in the solar area in Costa Rica are Chinese brands. Most companies selling solar systems are local companiesthat assemble Asian solar panels with some U.S. made components.

Who is a good solar installer in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We were so happy that Neil came out and fixed our system that had just been installed by another installer. We fought for months with that installer to come out to fix their system. Finally we called Sunnyside Solar Solutions and talked to Neil.
