

Cube energy Montserrat

Who uses Cube energy?

Cube Energy helps power restaurants, hotels, hospitals, high rises, high tech plants, and office buildings. Businesses of all shapes and sizes call us their partner. Cube gets the best deals--whatever the scale. Paying too much for electricity or gas service?

Who is cube green energy?

Cube Green Energy is a renewable energy producer and developer leading the transformation of Europe's energy market. We develop and operate wind and solar farms and have a core specialization in repowering existing wind farms, optimizing their performance and maximizing their energy output.

What are the benefits of working with Cube?

With Cube, you'll always have access to the lowest electric and gas rates in your market. Our analysts and our support staff are dedicated to saving you on energy. Working with Cube means our clients have an energy expert in their corner.

How does Cube energy save you money?

Cube Energy leverages expertise, strategy, and scale to save you money. Numbers don't lie - we formulate recommendations based on data and analysis. From the finer details to the big picture, we take a hard look at everything that moves the needle. Our clients trust us because we trust the numbers.

Why should you choose Cube energy?

Cube Energy - we guarantee you'll pay less. Industrial energy customers demand highly specialized plans to fit their specific needs. Our brokers are experts in the industrial energy space - we understand the ins and outs of cost structures, and even special tax breaks for certain eligible industries.

Energy deregulation means that any energy company can sell you the same electricity or gas that you're receiving now. These energy companies are called "retail electric providers" (REP) and choosing among them can be very complex because you have many different options, including your electricity or gas rate.
