

DR Congo aliexpress solar generator

How much power does DRC need?

Even with new solar and wind DRC could only satisfy between 15 and 55% of total demand. This leaves between 45% and 85% needing offgrid power or 16 gWof installed solar capacity ! Same applies to clean water as only 23% have access.

Will the DRC benefit from the Inga?

Currently the DRC only has 2.5 gW installed and no early benefit from the Inga. However solar and wind is available now. Existing HEP could fill in the 'gaps' when solar is not available. However offgrid power is essential in the rural areas and small towns across this vast country.

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances.

How much solar power is available in Kinshasa?

In the area around Kinshasa there is a further 6 gWof solar available at 7 us cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville.

Is the DRC a hydroelectric country?

This has given it enormous potential for hydro electric power and almost 100% of its grid power is HEP. The DRC is the largest country in Sub Saharan Africa occupying 2,345,000 km² with 3.32% as standing water including rivers and lakes. Its sheer size, lush vegetation and landscape has been its problem since independence in 1960.
