What is a Mysol lighting system?

Our entry-level MySol system meets basic lighting needs, while enabling customers to access useful upgrades. It is a clean, safe and economical alternative to kerosene and is the lowest cost possible without sacrificing on quality. It powers:

Will the DRC benefit from the Inga?

Currently the DRC only has 2.5 GW installed and no early benefit from the Inga. However solar and wind is available now. Existing HEP could fill in the 'gaps' when solar is not available. However offgrid power is essential in the rural areas and small towns across this vast country.

How much solar power is available in Kinshasa?

In the area around Kinshasa there is a further 6 GW of solar available at 7 US cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville.
