

Dometic solar panel Comoros

How much power does a Dometic solar panel kit use?

Let's take a closer look at the solar controller. The Dometic Portable Solar Panel Kit is rated at 6.63A and 18.1V at maximum power (at 25°C ambient temperature), giving a total of 120W of power. A solar controller is mounted to the back of the panels. It takes the power from the panels and converts it into useful 12V power.

What is a Dometic 120W portable solar panel?

The Dometic 120W portable solar panel is officially called a PS 120A. It comes in a thick cardboard box. Once you break into this box, you'll find the fun bits neatly packed in a carry bag. The panel has two sturdy latches and a carry handle. The panel comes supplied with: Folding portable solar panel with solar controller fully wired.

How do Dometic solar panels work?

Dometic's portable panel comprises two 60W monocrystalline panels, joined with a hinge and wired in parallel. The stand swings out and support arms hold the legs in place. It has four positions, from 45° to around 15°; from horizontal. The solar panel can be set at four different angles.

Is Dometic ps120a a good solar panel for camping?

It's easy to set up, folds away into a small footprint, and can be easily transported in its carry bag. And most importantly, it delivers on its promised output. The PS120A is a quality bit of gear... one we'll be using for a long time to come. If you'd like to get your hands on a Dometic PS120A portable solar panel for camping, then go here. P.S.

All cables are 4.0mm² (or roughly 12AWG), which are sized correctly for the rated output current. Let's take a closer look at the solar controller. Dometic Solar Controller. The Dometic Portable Solar Panel Kit is rated at 6.63A and 18.1V at maximum power (at 25°C ambient temperature), giving a total of 120W of power.
