What is Qatar's Solar Energy Future?

Qatar's solar energy future is steadily developing. With average daily sunshine of around 9.5 hours, low-cloud cover conditions and plentiful space, there is great scope for small, medium as well as large-scale solar power projects in the country.

Is Qatar a good location for solar energy projects?

Qatar's Solar Energy Potential Qatar's high solar irradiance levels make it an ideal location for solar energy projects. The country enjoys a global horizontal irradiance among the highest in the world, averaging over 2,000 kilowatt-hours per square meter annually.

Why should Qatar invest in solar energy?

Solar energy has multiple advantages for Qatar in the form of energy security, improved air quality, reduced GHG emissions, employment opportunities, apart from augmenting water and food security.

What is QSTec doing in Qatar?

QSTech, a polysilicon plant owned by Qatar Foundation and SolarWorld, is nearing completion and will produce 8,000 tonnes per annum of high grade polysilicon for export to the world's solar energy markets. QSTec is also constructing a 150 MW Solar Module manufacturing facility and a 1.4MW solar farm at Ras Laffan.

Will Qatar install solar panels on a redundant roof?

To make up for Qatar's space constraints, the company plans to install solar panels on redundant surfaces such as roofs of power stations and water reservoirs, thereby utilizing existing power transmission lines which will substantially reduced construction costs.
