Energeia's team lies at its core. Our technologies, processes, and systems will inevitably evolve and pivot as we grow our services and customer base. The seeds and nurture to enable this growth will come from us, the owners of Energeia.

The mission of this role is to ensure optimal functioning of Energeia's Energy Management System to create actionable energy savings for the customers. Primary responsibility of the Energy Analyst would be to accompany due diligence visits of the customers site and identify energy savings opportunities.

The mission of this role is to streamline Energeia's customer acquisition and business developments processes. You will be building, testing and implementing new methods to acquire, retain and convert potential customers. From analyzing business models and sales strategy to cold calling and visiting new customers, this role will be a crash ...

The energy sector is in the midst of a transformative and disruptive change. This change is driven by Climate change concerns and technological innovations that promise to improve the efficiency of the entire energy system while reducing emissions. There is an imminent shift towards a clean, digital, distributed and dynamic energy ecosystem from a static and ...
