

Energport battery Bouvet Island

What is the Energport battery?

Energport, Inc., founded in 2016, is a Silicon Valley based supplier of integrated energy storage systems using lithium-iron phosphate battery cells. Lithium-iron phosphate is the safest lithium-ion battery chemistry on the market and is the optimal chemistry for stationary storage.

What is Energport Energy Storage?

Energport's energy storage systems provide a fully integrated, turnkey energy storage solution using lithium iron phosphate batteries. These batteries, utilized in hundreds of thousands of electric vehicles, offer unparalleled degrees of safety and reliability within the Energport line of outdoor commercial & industrial and utility scale energy storage systems.

Does energport make energy efficient?

We make energy efficient! Energport Inc. aims to use its avant-garde technologies in energy storage to help the world to use energy more efficiently.

What is Energport?

Energport is a company that offers multi-MWh solutions featuring 40' container or skid-based designs for the utility and developer market. These designs include integrated LFP battery racks, power electronics, HVAC, fire suppression, energy management systems, and balance of plant.

What can Energport offer for me?

Energport offers energy storage systems that range from residential to large-scale, containerized systems for businesses and utilities. As a strategic partner with one of the world's largest lithium-ion battery manufacturers, Energport can deliver high quality energy storage systems to meet your needs.

What is an Energport inverter?

An integrated inverter is a feature of Energport's solution, providing plug and play functionality and reducing installation costs. Energport utilizes lithium iron phosphate batteries, which offer unparalleled degrees of safety and reliability.

An Energport partner is Guoxuan High-Tech, the world's sixth largest producer of lithium ion battery cells and packs. "Energport was founded by a number of industry veterans who had been following storage for the past decade -- folks from big battery companies like Samsung," he said.
