Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

Who is FAILE solar?

Failte Solar has proven itself a valuable partner in the solar industries of Spain, Ireland, and the UK. But it is preparing to spread even further afield. Abhilash Borana's introduction to Failte Solar is straightforward and to the point.
