

Is the Nordic power system a good investment?

The Nordic power system is well integrated due to a long history of cross border cooperation on grid, operations, and market development. This has been a core prerequisite for the high level of renewable production, and it will continue to be so with a Nordic power system which is expected to be carbon-free around 2035/40.

Is Finland part of the Nordic Synchronous Area?

Finland is part of the Nordic synchronous area along with Sweden, Norway and eastern Denmark. Finland is also connected to Estonia by HVDC transmission links. The joint Nordic system is also connected to the Central European system by HVDC transmission links.

Does Finland need a grid-connected battery energy system?

Finland is an international frontrunner in implementing grid-forming capabilities. Grid-connected battery energy systems are already required to have these properties in existing and future converter-dominated areas," says Harjula.

Nordic Solutions Finland Oy Ltd on perustettu vuonna 2018. Se on osakeyhtiö, jonka kotipaikka on Hanko, ja pääasiallinen toimiala Kiinteistöhallinto. Yhtiön toimitusjohtaja on Sami Jukka Korkela.
