Who is photon energy Australia?

Georg is an Austrian national and holds a Masters in Finance from the London Business School. Michael developed one of the first large photovoltaic installations in the Czech Republic before co-founding Photon Energy in 2008. Michael was CEO of Photon Energy until relocating to Australia to start Photon Energy Australia in 2011.

What is solar energy used for in Finland?

Solar energy in Finland is used primarily for water heating and by the use of photovoltaics to generate electricity. As a northern country, summer days are long and winter days are short. Above the Arctic Circle, the sun does not rise some days in winter, and does not set some days in the summer.

What is the most powerful photovoltaic solar plant in Finland?

In 2015, the Kaleva Media printing plant in Oulu became the most powerful photovoltaic solar plant in Finland, with 1,604 solar photovoltaic (PV) units on its roof. Although the city of Oulu, located near the Arctic Circle, has only two hours of weak sunlight in December, the photovoltaic cells work almost around the clock in the summer.

Is photon energy a publicly traded company?

A publicly traded company, Photon Energy N.V. is listed in Warsaw, Frankfurt and Prague, as well as online trading platform Xetra. The future starts with you. If you're looking for a new challenge and want to work in a dynamic, future-facing environment, we want to hear from you.

Does Finland have a solar heating system?

Thus, Finland has installed 10% of its objective in 11 years time (1995-2010). The solar heating has not been competitive due to cheap alternatives (electricity, fuel oil and district heating) and the lack of support systems. Companies and public organizations may receive 40% investment subsidies, but private houses do not receive subsidies yet.
