

Gilkes energy Afghanistan

Who is Gilkes energy?

Gilkes Energy was formed as a subsidiary in 2010 and works in hydropower project development. The company holds a Royal warrant as "Water Turbine Engineers" to Elizabeth II. In 2010 the company was awarded The Queen's Award for Enterprise: International Trade (Export).

Who are Gilkes hydro?

Gilkes Hydro manufacture Pelton, Francis and Turgo turbines from 50kW to 30MW. We offer customised, engineered solutions for hydroelectric developments, including design, manufacture, installation, commissioning, testing, service, and complete plant modernisation and upgrade.

What services does Gilkes hydro offer?

Gilkes Hydro offer a full range of products and services for the following applications: Gilkes range of Francis, Turgo & Pelton Turbines cover medium to high head projects and can generate up to 20MW per unit, including a range of compact solutions for the sub 200kW market.

What makes Gilkes unique?

Gilkes delivers innovative, single source solutions to the Small Hydropower and High Horsepower Engine markets.

What can Gilkes do for You?

Today, there are thousands of Gilkes' Francis, Turgo and Pelton turbines generating power around the globe: from Alaska to Zimbabwe, from medium to high head, from 50kW to 20MW and from mini grid to large utility. These projects stand as testament to everything that a partnership with Gilkes can provide.

Who are Gilkes hydro & pump specialists?

Hydro & Pump Specialists since 1856, Gilkes now export to over 85 Countries around the world. Standing at the forefront of turbine manufacture, our range of customisable, water-to-wire solutions are rooted in 170 years of pioneering heritage.

Micro hydropower plants are helping to improve the quality of life for many villagers in the Nangarhar province of Afghanistan. This has been made possible through the National Solidarity Programme (NSP) which provides basic infrastructure and services to rural Afghanistan, and is implemented by the Ministry of Rural Rehabilitation and Development with ...
