

Who is turbo power systems (TPS)?

Turbo Power Systems (TPS) will be at the Low Carbon Networks and Innovation Conference (LCNI) 2017, between 6-7 December, at stand A01. Gateshead-based Turbo Power Systems (TPS) has won first prize in the Losses Competition at the annual Energy Innovation Centre Awards, with the support of its partner, UK Power Networks.

Can TPS and UK Power Networks achieve a greener electricity supply?

TPS and UK Power Networks are collaborating on a revolutionary research project to release spare network capacity and significantly reduce customer bills whilst achieving a greener electricity supply by 2030. Turbo Power Systems (TPS) will be at the Low Carbon Networks and Innovation Conference (LCNI) 2017, between 6-7 December, at stand A01.

Who owns TPS?

TPS signed contract with UK Power Networks the Active Response Project. TAO, TPS major shareholder, was acquired by TPS Management team in partnership with Adderstone Group and de-list from AIM. TPS signed Protocol of Intentions with Amazonia Azul Tecnologias de Defesa - AMAZUL (Brazilian state-owned company of Technology).

In partnership with InnovateUK, we're demonstrating innovative V2X hardware and software solutions using new business models with real-world drivers in a real-world setting. V2X capabilities can enable electric vehicles to store and discharge electricity generated from renewable energy sources, such as solar and wind, with output that fluctuates depending on ...

For over 40 years Turbo Power Systems has been creating high performance power electronics solutions for some of the world's most important organisations. These include manufacturers, operators and governments. Today we are ...

Today we are regarded one of the most experienced big power conversion specialists in the world. Our key sectors are Transport, Industrial and Energy. Our focus is on ultra-efficient systems that enhance energy efficiency, reduce CO2 ...

One of the interesting takeaways from the recent London EV Show is there are a lot of new charger providers in the market. Many of them are bringing chargers into the UK from abroad with claims of delivering high speed. And they may well be right. But there's a fundamental issue with ultra-rapid charging [...]

Turbo Power Systems Limited We are a leading designer and manufacturer of cutting-edge power conversion systems with applications for industry, transport and energy. Headquarters - Map 1 Queens Park, Queensway North; NE11 0QD Team Valley Trading Estate; United Kingdom; Telephone +44 191 482 9200 ...

Turbo Power Systems General Information Description. Manufacturer and designer of electric motors and generators. The company's electric motors and generators include a wide range of electrical machines and power electronic products for multiple applications in our chosen markets of energy, industrial, transportation and defense, it also offers a customisable ...

Gateshead based technology developer and manufacturer of power conversion systems is set to launch its high power electric vehicle (EV) charging products into new markets with support from HSBC UK. Turbo Power Systems (TPS), which delivers high-tech solutions for transport, industrial and energy sectors, has utilised a £3.8m funding package to expand its ...
