Does Heard Island have a volcano?

Geography and History Heard Island is the largest and most volcanically active of the two islands. It has a glacier-covered central volcano, Big Ben, which last erupted in 2019. The island's unique landscape features ice caps, active volcanoes, and a wide variety of birdlife.

What makes McDonald Islands unique?

The island's unique landscape features ice caps, active volcanoes, and a wide variety of birdlife. The McDonald Islands are a collection of small islands with limited vegetation and no permanent inhabitants. They are important for seabirds, particularly wandering albatrosses that breed here. 3. Climate and Wildlife

The two small triangles are the McDonald Islands, mostly small rock islands and not nearly as impressive as Heard. I know that they probably are not as green as on the flag, but I simply didn't want to have grey on there. Lastly there's the southern cross from the Australian flag, following the lead of Christmas Island and the Cocos Islands.
