

Hidd power company Kazakhstan

Is Kazakhstan at a crossroads in its energy sector?

Kazakhstan, a vast and resource-rich nation in Central Asia, is at a crossroads in its energy sector. With a growing emphasis on sustainability and a need to align with global decarbonization efforts, the country is embarking on a transformative initiative that aims to ensure the security and reliability of its energy supply.

Is Kazakhstan phasing out inefficient subsidies and modernizing its energy infrastructure?

Kazakhstan's energy sector has long been dependent on fossil fuels, and the country now faces the challenge of phasing out inefficient subsidies and modernizing its energy infrastructure.

What is the economic situation in the power grid of Kazakhstan?

The difficult economic situation in the power grid of Kazakhstan. Falling volumes of power transmission through power grids, continuous growth of consumer debts for power transmission, reduction of financing led to degradation of the entire power grid. Law on Natural Monopolies (regulated electricity transmission and distribution activities)
