

Home solar energy systems Guam

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

Will my home solar system work during a power outage?

If your home solar system is tied to your utility (grid-tied) and you don't have a battery, your home solar system will not work during a power outage. You will not be able to produce or consume solar energy while the grid is down. In order to have power during a power outage, you will need a home solar + battery storage system. *

What is a solar inverter?

They are encased in ultra-high temp tempered glass capable of sustaining high wind loads (175 mph) and performing efficiently even in low light conditions and are backed by a 25-year warranty for minimum power output. GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP(TM).

This is the 2021 list of Top Solar Contractors completing work in Guam. The kilowatts listed as being installed in the territory reflect only kilowatts installed in Guam in 2020. Companies listed on this territory list could be headquartered in other states, participate in any market (residential, commercial, utility) and provide any installation service (EPC, developer, rooftop solar installer ...
