Are Hong Kong container terminals ready for container ships?

Equipped with the latest quay cranes capable of handling 24-across container vessels and an alongside water draught of 14-16.5 meters, the Hong Kong container terminals are ready to handle the latest generation of container ships.

How efficient are Hong Kong container terminals?

The Hong Kong container terminals are renowned for their efficiency. In year 2023, Kwai Tsing Port handled over 11.0 million TEUs, roughly about 80% of the total container throughput of Hong Kong.

Where are container terminals located in Hong Kong?

Substantial container throughput is handled by the River Trade Terminal at Tuen Mun and by mid-stream. The Kwai Tsing Container Terminals (Kwai Chung Container Terminals until Container Terminal 9 was opened on Tsing Yi), located in the north-western part of the harbour, has nine container terminals with 24 berths of about 8,500 metres of frontage.

How long does a container ship take in Hong Kong?

The average turnaround time for container vessels in Hong Kong is about 10 hours. For conventional vessels working in mid-stream at buoys or anchorages, it is 42 and 52 hours respectively. The port has been one of the busiest container ports in the world for many years, and at times the busiest.

Who is Hongkong International Terminals?

Hongkong International Terminals is a member of HPH Trust, the world's first container port business trust listed in Singapore.

What are port back-up activities in Hong Kong?

Port back-up (PBU) activities are an integral part of the overall port operation in Hong Kong. They are essential port-related activities but do not need to be located within the confines of the port. PBU facilities include container depots, container yards, container vehicle parks and container vehicle repair workshops.
