

Why should you choose Intec?

INTEC is growing, significantly expanding its renewables focus and adapting to new industry challenges. Our commitment extends beyond simply providing solar power. We design and implement eco-friendly solutions optimized for maximum energy output and efficiency, while minimizing any environmental impact.

What does Metin do in INTEC energy solutions?

In his current position as Project Director in INTEC Energy Solutions, Metin is responsible for all projects in the EU, including providing leadership to Project Managers, monitoring overall progress, and ensuring projects' quality. He has experience in planning and purchasing in the field of renewable energy.

Is biomass a source of electricity in Venezuela?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Venezuela: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.
