Who are green frog systems?

Green Frog Systems are pioneers in solar powered lighting. With over a decade of experience we can make your next project seamless from start to finish. We can assist you with appropriate lighting standards, project specifications and help you select the right options for the application, ensuring you receive the best possible outcome.

How long does it take to install green frog solar lights?

Since the installation there have been no crashes reported on the road crash register at this location. We were very impressed that it took less than one hour per GFS-200 to install and now we can plan better for the next phase of solar lights now that we know what it takes to install the Green Frog Solar lights.

solar panel 360° rotation with 0°- 60° tilt. Impact resistant panel with edge less frame design to prevent build up of dirt and avian fouling. 225W - 675W mono-crystalline panel(s) (modular design enables additional solar panels) with ...
