

Isle of Man moixa smart battery

What is a Moixa smart battery system?

Moixa Smart Battery systems are designed to be installed alongside solar panels to maximise the use of solar energy in the home and lower the owner's energy bills.

What is Moixa doing on the Isle of Scilly?

Moixa, along with Hitachi and Passiv Systems, is demonstrating how an island smart grid and virtual power plant can manage distributed energy storage, electric vehicles, heat systems, and renewables to balance local energy needs and reduce fuel poverty on the Isle of Scilly.

What is Moixa?

Moixa is a British technology company that makes solar technology smarter, helping households save up to 50% on their energy bills. Our Smart Battery and solar panel bundle allows households to store spare solar power or cheap-tariff electricity for use at a convenient time.

What is Moixa's ERIC project?

Moixa's ERIC project (Energy Resources for Integrated Communities) deploys 180KWh of smart energy storage across 82 homes, a school, and a community centre in East Oxford.

Moixa is a British technology company, we make technology smarter so that we can help you save money on your energy bills. Our Smart Battery helps households save money by storing spare-solar power or cheap tariff electricity. GridShare is Moixa's software platform that delivers parts of the smart grid to maximise the benefits of your smart ...

The new "family-sized" smart battery, which will be showcased at Solar & Storage Live next week, is the company's largest following its 2kWh and 3kWh systems, and is intended to reflect the emerging energy tariffs that are becoming more readily available across the domestic retail supply market.

Moixa has a comprehensive installer programme, from working with individual electricians, to national distributors with support for install and training. Call us. ... We also work on projects with many Moixa Approved Partners, who are typically involved in larger mass deployments of Moixa Smart Battery systems for social housing, property ...

4kWp solar system + 4.8kWh Moixa Smart Battery = £8,270 (inc. VAT & standard installation) The life expectancy of a PV panel is 25-30 years, though there will be some degradation over time resulting in a decrease in energy output. Moixa offers tier-one rated panels which come with a 25-year "power output warranty". This typically ...
