

Ivory Coast uk power battery

Will a lithium-ion battery energy storage system be installed in Côte d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

How will a new power station help Ivory Coast?

In addition to supplying the country with 37.5 megawatts of clean energy, the power station will enable Ivory Coast avoid the emission of 27,000 tonnes of carbon dioxide annually. Up to 300 construction jobs were created during the construction phase.

Will Ivory Coast generate 150 MW of solar power by 2020?

Ivory Coast aims to generate 150 MW of solar power by 2020. As of 29 November 2018, Ivory Coast to build two solar power plants. As of 21 November 2019.

Where is the first solar power project in Ivory Coast?

The project will be the first solar Independent Power Project (IPP) in Ivory Coast and will be located at the city of Bondoukou in the north-eastern region of Gontougo, located 420 km northeast of Abidjan.

Who built the Ivory Coast Power Station?

The power station was developed by the government of Ivory Coast, with financial backing from the European Union and the German Investment and Development Bank (KfW). The engineering, procurement and construction (EPC) contract was awarded to Eiffage Énergie Systèmes, a subsidiary of the French Eiffage Group.

Why is AMEA power supporting Ivory Coast?

Hussain Al Nowais, Chairman of AMEA Power, said: "AMEA Power is proud to be supporting Ivory Coast meet its clean energy ambitions, which will deliver investment, job creation and sustainable development.
