

Kilang solar penang Canada

Could a solar farm float on Penang's Harbour?

The Star has learnt that this entails creating a solar farm that floats on a sheltered quarter of Penang's harbour stretching over 4ha, the size of three World Cup football fields. On a sunny day, it is expected to churn out 30 megawatts of electricity, which theoretically will be enough for 6,000 homes.

Is Canadian Solar a bankable company?

Over the past 19 years, Canadian Solar has successfully delivered over 46 GW of premium-quality, solar photovoltaic modules to customers in over 160 countries. Canadian Solar is one of the most bankable companies in the solar industry, having been publicly listed on NASDAQ since 2006. Antah Solar is a member of the Antah Group.

How much solar power will Canadian Solar generate?

The project will be powered by 13,000 pieces of Canadian Solar's high-efficiency KuMax modules. Once in operation, the plant is expected to generate approximately 6,700 MWh of clean, reliable solar electricity each year for 25 years. The Company expects the project to reach commercial operation by the end 2020.

Since its establishment in Penang, Malaysia in 2015, Omega Solar Sdn. Bhd. has been a strategic partner to global PV module leader - Jinko Solar as well as other industry brand on PV connector, junction box and aluminum frame for more ...
