Wind and wave weather forecast for Kiribati contains detailed information about local wind speed, direction, and gusts. Wave forecast includes wave height and period.

Does Kiribati have a climate problem?

“During the high tide, the waves come and the strong winds and these ropes are to make it steady. To keep it in place during the high tide,” he says. Even by Kiribati's basic standards, it's a rudimentary fix. But the people here have little to work with. And really, that's the problem at the heart of Kiribati's climate dilemma.

What is the weather like in Kiribati?

Kiribati group: Moderate to fresh easterly to southeasterly winds 11-21kt. Gusty at times. Rough seas. For Makin and Butaritari: Tonight: Cloudy with light showers. Tomorrow: Partly cloudy with light showers. For Marakei, Abaiang, Tarawa and Maiana: Tonight: Partly cloudy with isolated brief showers. Tomorrow: Mostly sunny.

Is Kiribati still a coastal storm?

Another coastal storm passes and leaves a trail of flooded plantations, destroyed houses and poisoned wells behind it. Kiribati is still Kiribati. However, it is a little more faded, a little thinner. Yet, resignation does not belong to these atolls.

What is Kiribati?

This is what Kiribati is: a handful of atolls lying on the huge womb of the Pacific Ocean. It is an ant that has been paying the cost of elephants for too long. Distant and unaware pachyderms have hurled against it the bulimia of a ferocious, corrupted and swollen sea due to the ice melting.

What is the swell advisory for Kiribati?

Swell advisory #03: An easterly to north-easterly swell advisory remains in force for the Northern islands in the Kiribati group. The public is advised to take precautionary measures to minimize possible impacts. A gusty wind advisory remains in force over the Kiribati group and Banaba. The public is advised to take precautions to minimize threats.

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati's entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government's largest expenditures.

Kiribati warms at a similar amount or slightly less than the global warming rate. However, this doesn't mean impacts are lower than other nations - high temperature extremes emerge faster in the tropics (Frame et al. 2017) and Kiribati is vulnerable to climate change in many ways, so risk assessment is needed.
