

In such a system, the emergency luminaires of the central battery system do not have their own emergency power supply (e.g. a battery or supercapacitor). Teknoware's range of central battery systems starts with small systems containing just a few dozen luminaires and a single central battery unit up to centrally controlled systems containing ...

The Central Battery System (CBS) is a critical safety feature in modern buildings, providing power to emergency and exit lighting systems in the event of power failure. Regular third party inspection of this system is essential to ensure that it functions effectively during emergencies.

MARKET: UAE/KSA A central Battery System is used to cater the power supply for Emergency Lighting purpose. Emergilite is a part of Thomas & Betts corp, offering a single stop solution from design, manufacturing, installation, commissioning and after sales care. These are also compliant to high quality standards of ISO 9001; 2000.
