

What is Leclanche's new modular energy storage system?

Cost, complexity and carbon footprint. Earlier this month, Switzerland-headquartered Leclanche launched its new, modular energy storage system solution aimed at reducing all three of these challenging points for the industry.

How does Leclanche support e-transport solutions?

They are supported by a lean and efficient corporate central team. Leclanche's e-Transport Solutions team powers the electrification of transport (trains, vessels, trucks and more) through efficient, proven and reliable energy storage solutions. This group creates custom low-voltage battery systems for a wide range of demanding applications.

Does Leclanche offer a battery energy storage system?

Leclanche will also be providing the battery energy storage system (BESS) for the on-shore recharging system for the Damen ferries. This turnkey approach offers significant benefits to future shipbuilders, ports and harbor authorities seeking a frictionless way to accommodate these state-of-the-art vessels.

Will Leclanche build a fully electric ferry?

Leclanche is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion systems powered by batteries of 1.9MWh and 4.6MWh capacity respectively.

Robust and growing order book driven by global demand for Energy Storage Solutions exceeds CHF 100 million. ... licencing fees from Leclanche's JV in India and the delays in production caused by the Company's comprehensive review of its cell manufacturing processes. Full delivery of ongoing contracts is expected to strengthen revenues in H2 ...

Leclanche SA is a world leading provider of high quality energy storage solutions using lithium-ion cell technologies to accelerate our progress towards a cleaner energy future. Leclanche is the only listed pure play, energy storage company in the world and is ...

Leclanche präsentierte EMS-Plattform für netzgekoppelte Micro-Grids. Leclanche stellt auf der diesjährigen Energy Storage Europe sein Energie-Management-System (EMS) zur Verwaltung und Steuerung großer netzgekoppelter Batterie-Energiespeichersysteme vor. Zum Einsatz kommen diese unter anderem in stationären Energiespeichern zur Solarstromgewinnung.

World leading provider of high quality energy storage solutions Accelerating the integration of renewable energy into our grids and powering the electrification of transport Our Technologies Our Solutions Our

branches Company news Wed Nov 4 Performance results of Leclanche's 60 Ah cells validate their use in fast-charge and long-range ...
